

I am among the millions of NJ residents who are on the DoNotCall list, and strongly urge all legislators who represent us to oppose any weakening of the current NJ law on this matter. Americans are bombarded by a barrage of all types of "junk" mail, calls, etc. and have had it up to "here". Besides helping to protect the ever-shrinking privacy of the citizen, this law discourages fraud, and misuse of public communications to harass citizens. I urge you to keep NJ's DoNotCall laws in place and strong!
